CAREER OBJECTIVE

Hardworking, dedicated, and skilled Flutter Developer with 2.5+ years of experience in mobile application development. Seeking a challenging role where I can contribute technical expertise, innovative problem-solving, and a collaborative mindset to build high-performance, scalable mobile applications.

TECHNICAL SKILLS

- **Programming Languages:** Dart, Python (Learning).
- **Frameworks & Technologies:** Flutter, Firebase, RESTful APIs.
- **State Management:** GetX, BLoC.
- **Architecture & Principles:** Clean Architecture, Dependency Injection, Unit Testing.
- **Tools:** Git/GitHub, Mobile Memory Management, Performance Optimization, Debugging.
- **Deployment:** App Store Connect, Google Play Console.

PROFESSIONAL EXPERIENCE

Software Developer (Flutter) | UpScaleBD Ltd. *January 2025 – Present*

- Developed and maintained mobile applications using Flutter and GetX.
- Architecting and developing cross-platform mobile solutions with a focus on scalability.
- Implementing clean architecture and modular codebases to enhance maintainability.

Software Developer (Flutter) | Market Access Analytics and Consulting (MAAC) *May 2024 – December 2025*

- Collaborated with cross-functional teams to integrate complex backend APIs.
- Enhanced app responsiveness and performance through efficient memory management.

Flutter Developer | bdCalling IT Limited *June 2023 – May 2024*

- Participated in agile development cycles and code reviews to ensure high-quality delivery.
- Handled production bug fixes and performance bottlenecks.

KEY PROJECTS

DigiGo – Attendance Management System *Comprehensive Employee Management Platform*

- Developed a 3-role system (Employee, Manager, Admin) for attendance and leave tracking.
- Build the Expense Management module and leave approval workflow.
- **Payroll System:** Implemented modules for salary calculation, deduction tracking, and digital payslip generation.

EDOTCO PG RUN

- Implemented a real-time notification system for generator task updates.
- Optimized task allocation logic to ensure efficient resource sharing.

HRx – HR & Payroll Management Solution

- **Role-Based Access:** Developed a dual-interface system for **Employees** (self-service) and **Approvers** (management/HR).
- **Geo-fencing Attendance:** Integrated location-based tracking to allow check-in/out only within authorized office perimeters.
- **Leave Management:** Built an automated request-approval lifecycle with real-time push notifications for status updates.
- **Tech Stack:** Flutter, GetX/BLoC, Google Maps API, Geo-locator, REST APIs.

EDUCATION

B.Sc. in Computer Science & Engineering | Daffodil Institute of IT (DIIT) — *Graduated 2023*

ADDITIONAL SKILLS

- **Agile Methodology:** Experience with Scrum and Jira.
- **UI/UX Focus:** Implementing responsive designs and custom animations.
- **Problem Solving:** Expertise in identifying bottlenecks and bug fixing.
